2009-2012	WRX	2.5L	14411AA800	VF52	1450-050-900

The Central Motive Power warranty on all turbochargers either new or re-built is a One Year from date of purchase by installer or end user/100,000 miles warranty and is whichever occurs first.

For VF40/VF39 turbochargers and CHRA's, the oil feed line (#14445AA090) banjo bolt needs to be replaced. The banjo bolt contains an oil filter screen which when it becomes clogged, starves the unit from oil. CMP will not warranty oil deprived units that are submitted for warranty.
